more about me

A Designer with strong & solid class of quality and rapid adapting pace to workplace. My overall type of works are creating brand identities, explaining the background design concept to the clients, designing layouts & packaging, modeling various 3D stuffs and assigning suitable design tasks for my juniors. I love all the problem solving and sensational designs and always improving my skills reading design books & practicing upon courses.

skill types

LOGO BRANDING

Based from design concepts to brainstorming with team, designing & meeting with business partners to finalize the best design engraving the concept story behind business.

3D VISUAL DESIGNS

Creating various product visuals for my team to reach top form of media appearances, visualizing event booths of the clients and others general kind of stuffs for the studio.

LAYOUT DESIGNS

Designing various kind of layouts including company profile catalog, menu design, pamphlet and banner, packaging design and print poster.

KBTC GROUP OF COMPANIES

One of the biggest education group of companies providing wide range of courses to attend UK and US education degrees & diplomas. I worked at KBTC Group starting as a Junior Graphic Designer and yet consistent hardwork and vision makes me become Design Lead. I mainly designed social media advertising and events of the school ceremonies. As a Design Lead, I assigned every designers tasks and make sure all of their creative works stay in brand guideline.

+ Social Media & Event Design

+ Art Directing & Team Leading

FUTURE NOW – DESIGN AGENCY

For the name in Branding, Future Now Design Agency is well known for its stand out quality where I worked as creative designer. My main job scopes in Future Now are mostly brand identities yet I also had to design company profile catalogues, packaging designs, social media ads designes and 3D visual works. My team and I brainstorm the base concept of the brands together and visualize the concept ideas under the direction of our Art Director.

+ Brand Identities & Event Design

+ Packaging, Layout & 3D Asset Support

UP2US – MARKETING AGENCY

My last work, which is mainly targetting huge brands from Myanmar. My main duty of this work is creating 3D assets and CG works for other designers and visualizing booth designs for upcoming events of the agency's clients. I had to create stunning visuals for each product to put on billboards and event posters and sometimes had to create UI 3D icons to put on app pages. I create custom mockups for each brand and product so that their appearances become unique on digital media.
